### USED OIL, FILTERS & ANTIFREEZE

Oil and petroleum products can pollute ground and surface waters. Take used oil to a HHW drop-off area or call **1-800-741-4DEP** to find a participating public used-oil collection center. Antifreeze is especially toxic to animals. Take to a HHW drop-off area.

### PESTICIDES

Use as directed or take to a HHW drop-off area. Empty pesticide containers can be thrown away with household garbage.

### GAS CYLINDERS

Propane and other flammable gases can cause explosions or fires when disposed in the garbage. Take to a HHW drop-off area or propane dealer.

### FUEL & GAS

Containers up to 5 gallons can be left at any site. Containers can only be emptied and returned at the main facility.

### FLARES

Marine and roadside flares can cause fires when disposed in the garbage. Take to a HHW drop-off area.

### MERCURY AND FLUORESCENT LIGHTS

All fluorescent lights and some thermometers, float switches and thermostats contain mercury. Mercury is a toxic metal that bio-accumulates in fish and animals in the environment. Take to a HHW drop-off area. Ten or more lights may be considered commercial.

### ELECTRONICS

Electronics – such as computers, printers, cell phones and stereos – contain many recyclable materials and small amounts of toxic materials. Take to a HHW drop-off area. Five or more computers may be considered commercial.

### HOUSEHOLD BATTERIES

Rechargeable batteries contain toxic metals and can be recycled. Call **1-800-8-BATTERY** for a participating drop-off retailer or take to a HHW drop-off area. Non-rechargeable batteries, such as alkaline, can be thrown away with household garbage.

### AUTO BATTERIES

Automotive and vehicle batteries contain large amounts of lead and acids. Take to an auto parts retailer or to a HHW drop-off area.

### PAINT

Liquid paints can cause big messes when mixed with trash as some paints are flammable or contain toxic metals. Take to a HHW drop-off area. Alternatively, latex paint can be dried out and thrown away with your household garbage. Remove lid and add sand, cat litter or sawdust to absorb liquid. Leave uncovered in garbage.

### SHARPS

Needles and other medical wastes are not accepted at SWA HHW facilities. The Palm Beach County Health Department has a Used Sharp Depository program. Call **561-837-5900** for more information.

### PHARMACEUTICALS

Keep your prescription medication away from our children and out of our water supply. Drop off your unwanted prescription drugs at participating police stations. Please call **561-681-4460** for more information.

### USED COOKING OIL

Used cooking oil can harm septic tanks and clog sewers. It can also be used to make a variety of products including new fuel for cars and trucks. Take it to your nearest HHW drop-off area.

**For more information about the proper disposal of household hazardous waste, please call 561-697-2700 or visit our website at [www.swa.org] or [Earth911.com]. Businesses call 561-687-1100 for more information.**
