

**RESOLUTION NO. 2017-10**

A RESOLUTION OF THE TOWN COMMISSION OF THE TOWN OF OCEAN RIDGE, FLORIDA, ADOPTING THE CONSTRUCTION MANAGEMENT HANDBOOK; PROVIDING AN EFFECTIVE DATE.

**WHEREAS**, the Town Commission has adopted an ordinance related to construction sites in the Town in order to clarify its regulations; and

**WHEREAS**, the ordinance provides that the Town shall adopt a construction site management handbook with respect to construction activities; and

**WHEREAS**, the Town Commission determines that it is in the best interests of the residents of the Town to adopt the attached "Construction Site Management Handbook".

**NOW, THEREFORE, BE IT RESOLVED BY THE TOWN COMMISSION OF THE TOWN OF OCEAN RIDGE, FLORIDA THAT:**

**Section 1.** The Town Commission hereby adopts the "Construction Site Management Handbook" attached hereto.

**Section 2.** This Resolution shall take effect immediately upon its adoption.

Vice Mayor Bonfiglio offered the foregoing Resolution and moved its adoption. The motion was seconded by Commissioner Coz, and duly passed by the Commission.

The Mayor thereupon declared the resolution duly passed and adopted this 1<sup>st</sup> day of May, 2017.

The rules and regulations in this handbook apply to all construction sites and are a condition of all primary building permits issued by the Town or any permit for which a fee is charged on a single permit job. Failure to follow these regulations, or any plans and documents approved by the Town pursuant to this Handbook, may result in a Stop Work Order, and repeated violations may result in the revocation of all building permits.

## CONSTRUCTION SITE MANAGEMENT HANDBOOK

**MUST BE POSTED  
AT JOB SITE  
WITH PERMIT**

---

The rules and regulations in this handbook apply to all construction sites and are a condition of all primary building permits issued by the Town or any permit for which a fee is charged on a single permit job. Failure to follow these regulations, or any plans and documents approved by the Town pursuant to this Handbook, may result in a Stop Work Order, and repeated violations may result in the revocation of all building permits.

# TOWN OF OCEAN RIDGE CONSTRUCTION SITE MANAGEMENT HANDBOOK

## I. INTRODUCTION

This handbook has been developed by the Town of Ocean Ridge to familiarize contractors with the Town's rules and regulations regarding construction sites and to minimize problems and delays in completing construction projects. The Town is fully aware that building construction is a complex and difficult process even under the best of conditions. Problems do and will arise. However, through careful thought and planning prior to beginning the process, the Town believes the number and severity of problems can be reduced or avoided altogether.

This handbook addresses the most common problems experienced by contractors, residents and the Town government during construction projects. While the handbook is comprehensive and its rules and regulations apply to all construction sites, the Town intends to administrate it using a cooperative, common sense approach. Just as the type and degree of potential problems vary greatly from site to site, so too will the administration of these rules and regulations vary. Accordingly, all parties are encouraged to focus on the *objective* of a particular rule or regulation rather than on the specific *methods* suggested for achieving that goal. If there is a better method, it will be considered. With the help of all parties, the Town believes the handbook can be administrated fairly, while also permitting a great deal of flexibility.

---

The Town Building Official has been charged with implementing these rules and regulations and all questions and comments should be directed to him/her. However, any contractor who is aggrieved by the Building Official's application of these regulations may appeal to the Town Manager for relief, any appeal from the Town Manager's decision shall be pursuant to the Town Code of Ordinances. Please note, however, that while the Building Official has the primary responsibility for enforcing these rules and regulations, the Police Department and Town Manager may also enforce these provisions.

## II. APPLICABILITY

The rules and regulations in this handbook shall apply to all construction sites and **shall become a condition of the building permit**. A construction site is any real property, dwelling unit, structure or building for which one or more building permits has been issued by the Town, including those with inactive or expired building permits where construction activities have been initiated but not completed. Failure to follow these regulations, or any plans and documents approved by the Town pursuant to them, may result in a stop work order by the Town, and repeated violations may result in the revocation of all building permits.

For purposes of administrating this handbook **the contractor paying the fee and property owner shall be jointly accountable** for all responsibilities assigned by this handbook to the "contractor." However, to avoid confusion and delays, a principal contact with the either the contractor or the property owner should be established with the Town at the time the primary building permit is issued.

### III. PRE-CONSTRUCTION MEETING

Prior to making an application for a building permit, contractors are encouraged to meet with Town staff to review the applicable rules and regulations contained in this handbook. Construction site plans, other drawings and/or documents pertinent to construction operations may be required before the building permit can be issued. Compliance with these rules and regulations shall become a condition of the building permit, **and acceptance of the building permit by the contractor shall serve as an acknowledgement of this condition.**

### IV. RULES AND REGULATIONS

#### 1. OFF-SITE DAMAGE

The contractor shall be responsible for all off-site damage to roads, rights-of-way, easements, utilities and private property caused by any activity related to his/her construction site. This includes damage by his/her employees, sub-contractors and suppliers.

Several of the rules and regulations in this handbook are intended to prevent or minimize off-site damage. **Accordingly, the contractor needs to inform all employees, sub-contractors and suppliers of these rules and regulations and the high potential for off-site damage due to the presence of narrow streets, tight corners, and extremely soft shoulders.**

---

The above notwithstanding, the Town recognizes that accidents can happen. In those instances, the contractor needs to take the following actions:

1. Inform the Town Police Department immediately as to the location and extent of the damage.
2. Inform the Town as to how the incident occurred and the parties involved.
3. Inform the Town as to the corrective actions that will be taken and when they will be completed. (All repairs should be made within 24 hours or as soon as practical.)
4. Inform the Town as to the actions to be taken to prevent the accident from occurring again in the future.

If the above actions are followed, there should be few problems. However, repeated damages, particularly of the same type, such as running off the road, will not be tolerated even if they are continually repaired. It is the Town's goal to **prevent** off-site damages, not to simply repair them when they occur.

#### 2. VEGETATION PROTECTION

Prior to beginning any site work, all existing vegetation to be maintained or relocated shall be fenced or otherwise protected from damage, including the provision of temporary irrigation where necessary and shall be in accordance with Section 67-8 of this Code.

#### 3. PERMIT POSTING

All Town building permits shall be posted in a single, conspicuous location at the front of the site and in accordance with Section 67-59 of this Code. One complete set of approved plans shall be maintained on-site at all times.

#### **4. TRAILERS/DUMPSTERS/PORTABLE TOILETS**

Construction trailers, dumpsters and/or portable toilets may be used provided the requirements listed below are met. Prior to locating any of these facilities on a site, a plan indicating their locations and other pertinent information shall be submitted to the Building Official for approval. Prior to the issuance of certificate of occupancy/completion, all such facilities shall be removed from the site.

##### Trailers

Shall be allowed in accordance with Section 67-9 of the Town Code.

##### Dumpsters

Roll-off dumpsters shall be provided on all sites as follows:

1. To the extent practical, dumpsters shall be positioned perpendicular to the street or otherwise be screened from view from the street.
2. To the extent practical, dumpsters shall be located at least 10 feet from all property lines.

---

3. Trash piles, other than vegetation, are prohibited.
4. Burning of any material is prohibited.

##### Portable Toilets

Portable toilets may be permitted provided the following are met:

1. To the extent practical, they shall not face the street.
2. To the extent practical, they shall be located at least 10 feet from all property lines.
3. Shall be screened from the public.

#### **5. SIGNS**

Signs shall be posted in accordance with the Town's sign code.

#### **6. EROSION AND STORMWATER CONTROL**

Appropriate erosion and stormwater control methods shall be used during construction to prevent adverse impacts to neighboring properties and adjoining streets and shall be in accordance with Section 67-7 of the Town Code. This may necessitate the creation and maintenance of temporary swales, retention areas and/or berms. Further, the Contractor must show all drainage structures located in the public right-of-way that are located within 300 feet of the property. The Contractor may be required to install silt fences or other protective measures around such drainage structures if required by the Town.

To prevent dirt from being tracked onto adjoining streets, parking areas should be covered with appropriate, compacted materials. **Dirt and mud or construction material tracked onto adjoining**

streets shall be immediately removed in accordance with Code Section 67-1, and shall also be swept daily, and hosed or mechanically cleaned weekly if necessary.

## 7. WORKING HOURS

The working hours specified in Section 34-83 of the Town Code shall be strictly observed.

## 8. PARKING

### On-Site Parking

All vehicles associated with the construction or construction personnel shall be parked completely on the construction site and/or an alternate location approved by the Building Official. On-site parking areas should be covered with a suitable, compacted material to prevent dirt and mud from being tracked or washed onto adjacent streets and properties. Washing or repairing vehicles anywhere in the Town is prohibited.

### Alternate Parking Sites

Alternate parking sites may be approved by the Building Official and/or Police Chief provided the following requirements are met:

1. The owner of the alternate parking site has granted written permission.
2. The alternate parking area is composed of a suitable, compacted surface.
3. The parking area is prepared in such a manner so as to prevent erosion and stormwater runoff onto streets and neighboring properties.
4. No significant vegetation (non-invasive trees or shrubs with a caliper of 4 inches or greater) or topographic features shall be removed or disturbed.
5. Alternate parking sites shall be used for parking only. Washing or maintaining construction-related vehicles is prohibited as are all other activities related to the construction site.
6. Alternate parking sites shall be kept free of litter and other debris.
7. A plan shall be prepared showing the number and location of vehicle parking spaces.
8. Use of the alternate parking site shall not cause a traffic hazard or cause a significant disruption to the privacy and peaceful enjoyment of neighboring properties.
9. Prior to the issuance of certificate of occupancy/completion for the construction site, the alternate parking site shall be restored to a condition and appearance better than or equivalent to the condition and appearance prior to the use as an alternate parking site.

### Parking in the Public Right of Way

Parking in the public right of way is prohibited unless allowed by the Building Official. In order to be able to park in the public right of way the contractor/owner must provide sufficient documentation/information to the Building Official that he/she is unable to accommodate all of the vehicles associated with the construction activity on the site. If the Building Official allows parking in the public right of way, it shall be through the issuance of a public right of way parking permit. Only two permits may be issued per construction site and the permits must be placed in the dashboard of each vehicle. If the permit is not visible or if a vehicle fails to have a permit the Town

may take whatever action is legally allowed including, but not limited to, code enforcement action and issuing stop work orders for the entire construction site. No certificate of occupancy/completion shall be granted until any and all damage, caused by the parking of the construction vehicles in the public right of way, has been repaired to the satisfaction of the Building Official.

## **9. TRUCKS**

Due to the narrow streets, tight corners, very soft shoulders, and instable road-base conditions in Town, semi-trailers and trucks over 9 tons (when loaded) are discouraged on all Town streets. Accordingly, contractors are strongly encouraged to use smaller vehicles and notify their suppliers to do likewise. In the event an alternate delivery vehicle cannot be arranged, all semi-trailers and trucks over 9 tons (when loaded) shall notify the Police Department of their pending arrival at least 24 hours in advance. Further, **the drivers of such vehicles and the general contractor shall be responsible for any and all damage caused to rights-of-ways, roads, utilities, and private properties.**

## **10. LOADING AND UNLOADING**

---

Shall be in accordance with Sections 64-48 and 67-6 of the Town Code.

## **12. BUILDING MATERIALS STORAGE AND SITE MAINTENANCE**

Storage and site maintenance shall be in accordance with Section 67-1 of the Town Code.

## **13. NOISE**

Noise restrictions shall be in accordance with Section 34-83 of the Town Code.

## **14. OCCUPANCY**

Occupancy of any structure without a certificate of occupancy is prohibited. This prohibition includes the temporary occupation of the structure under construction by security or other personnel.

## **15. EMERGENCY MEASURES DURING STORM EVENTS**

Removal and securing of construction materials during tropical storm and hurricane warning or watch shall be in accordance with Section 67-3 of the Town Code.

## **16. TEMPORARY FENCING**

Fencing shall be installed in accordance with Section 67-4 of the Town Code.

## **V. FINES AND PENALTIES**

Failure to comply with the rules and regulations contained in this handbook, or with the plans and documents approved by the Building Official pursuant to this handbook, may result in fines assessed against the property, a stop work order being issued or revocation of building permits. For the purposes of this handbook, uncorrected violations shall be considered separate violations for each day they go uncorrected. Violations may be issued by the Building Official, any Town Police Officer, or the Town Manager; however, all offenses/warnings shall be cumulative regardless of who issued them.

**The above notwithstanding, nothing herein shall preclude the Town or its employees from taking any and all actions permissible under federal, state and local laws to enforce, cite or correct violations of federal, state or local laws which may or may not be covered in this Handbook.**

---
